

# We didn't ask for

## the 90 Day Fire-at-Will Law

The Government is going to remove *everyone's* right to appeal against unfair dismissal in the first 90 days of a new job, not just those in small companies

## our ACC entitlements to be cut

The Government is gutting ACC, cutting back pay-outs, forcing workers back to work before they are better, denying treatment with any excuse they can find, and letting private insurers and case managers in which will cost more and pay out less

## our access to our union in our workplace to be cut

Workers will need their boss's agreement to have their union come to the workplace. National will let employers decide when members can see their unions at work. Employers will use this to try to stop workers organising. Workers have international human rights to be in a union at work

## our holiday to be sold off

Now the Government wants to let you 'sell' your 4<sup>th</sup> week's leave back to your employer for cash – opening the door to taking it away altogether

## our every sick day off to be queried

Employers will be able to ask for a medical certificate for even one day off sick – even if your kids are sick!

## our right to regular breaks to be rolled back

The Government has repealed the law on lunch and tea breaks which had only just come in – now you have to negotiate them with your boss again

## our bills to go up with GST

So much for tax cuts – they give a few bucks with one hand and GST price rises take away with the other

## our kids' early education charges to be hiked

Families will have to fork out more money to keep their kids in early childhood centres and kindergartens because funding has been cut

## our health services to be cut

Aged Care Home Services are being cut for the elderly. Many are having their services cut

## our night classes to be cut

Adult and Community Education budgets were slashed, cutting our opportunities to develop our skills and get ahead

## our public services to be cut

Cuts to essential public services... border security, conservation, science and research and many more.
